This cleaning requires several of our highly trained professional technicians. You will have 1 tech fully available to make your cleaning experience everything you have ever dreamed of. Special requests to the interior of the home are accepted ONLY during this cleaning such as putting away dishes, folding laundry and other requests within our level of cleaning expertise.

We are not insured to clean anything on the outside of the home including porches, garages, windows, storm doors, etc. We are prohibited from climbing higher than a 3 step ladder. We will not open any drawer, cabinet or door, including bedroom doors without your permission, so please remember to leave open room doors on the day of service. We will not clean inside of a curio cabinet or glassed in area where your fine china or precious memorabilia is located. We do not clean metal mini blinds and do not guarantee our work for blind cleaning at all. We are not responsible for damage to blinds. We have a clutter rule, if we cannot access a surface without damaging your items on it, or do not have enough room to clean due to clutter, we will not attempt to clean the area. Dust may resettle quickly and may require additional visits to get under control.
